He leaves a wife and nine children to mourn the sudden taking off of a good husband and father. He was forty-nine years of age and had but recently purchased the Gaywood farm. The family have the heartfelt sympathy of the entire community in their great loss and sorrow.

Last Sunday the district meetings of the Laymen's Missionary movement were held in the Presbyterian church of this place. Attorney D. B. Grubb and Mr. E. H. Jenson, secretary of the Young Men's Christian Association of Mt. Vernon, were here and gave some very interesting talks on the work, describing the need of evangelizing the heathen nations in this generation and that in order to do this great sums of money must be raised and the enterprise financed on business lines. Something like eighty millions of dollars are now required and this sum can be raised if every church member will agree to pay \$2.50 per year or five cents per week, the price of a dish of ice cream. To systematize the work Fredericktown and nine other churches in this vicinity are made in to a district and Sunday evening a committee of three were elected to further this work. Dr. C. M. The heavy hail storm Monday afternoon was one of the worst that has visited this place in a long time. There is scarcely a house that did not lose some of its window glass and many of the houses had whole windows broken to pieces. The storm did not last long but the rain and hail that fell during that time was heavy so much so that the merchants went out afterward and swept off the walks the same as though there had been a snow storm. On Tuesday morning there still remained around many of the houses piles of ice that had not yet melted.

Monday noon, as Mr. John McKinney was driving into town his team became frightened at an umbrella and ran away. Two ladies were going to

the country and just before reaching the Simons crossing, they met Mr. McKinney and his team, one of the horses being a colt. The colt jumped sideways and broke the wagon tongue and Mr. McKinney jumped to the ground; as he did so the reins broke and the horses started to run smashing into a telephone pole where they left the wagon. They then ran toward town and were stopped in front of the Odd Fellows' block. It was found that the older mare was badly injured and a veterinary surgeon was summoned from Mt. Vernon. It is thought that one of the bones high up in left leg was broken. The horse is a valuable one and in good condition so it was decided to await further developments before killing it.

After the band meeting last Friday evening the baseball boys had a business meeting at the council room at which there was a representative attendance. The boys seemed to think that the outlook for a regular organized team for Fredericktown was much in doubt, as very little interest had been taken in the matter and that the time had come when dollars must talk. There is a lot of extra expense incident to the organization this year that must be taken care of—new uniforms and other paraphernalia that has been used until it is completely worn out. The boys now put it up to the business men that they must furnish at least \$125 or they cannot organize. Some of the business men in turn think that they are taxed to about the limit for everything that comes along and that returns from such an investment is doubtful. Whether the spirit of sport will overcome this business reasoning is something yet to be developed.
